CONTENTS OF VOLUME 47, 1988

(All rights reserved)

PAGES

Discussion *(Formed part of the Four Hundred and Twenty-seventh Scientific Meeting)*

WATERLOW J. C. Introductory remarks 1
JAMES W. P. T. & RALPH ANN Should the national diet be altered to prevent coronary disease? 3–8
General discussion 11–19

Trace Elements and Human Health *(Symposium Proceedings: Four Hundred and Thirty-first Scientific Meeting)*

AGGETT P. J. Trace element status of the human diet 21–25
SOUTHON SUSAN, FAIRWEATHER-TAIT SUSAN J. & HAZELL T. Trace element availability from the human diet 27–35
HAMBIDGE K. MICHAEL Assessing the trace element status of man 37–44
CAMPBELL DORIS M. Trace element needs in human pregnancy 45–53
CASEY CLARE E. Selenophilia 55–62

Boyd Orr Memorial Lecture

BEATON GEORGE H. Nutrient requirements and population data 63–78

Nutrition and Alcohol *(Symposium Proceedings: Four Hundred and Thirty-fifth Scientific Meeting)*

PATON ALEX Alcohol: lessons from epidemiology 79–83
MORGAN MARSHA Y. & LEVINE JAMES A. Alcohol and nutrition 85–98
KANNEL WILLIAM B. Alcohol and cardiovascular disease 99–110
BEEVERS D. G. & MAHESWARAN R. Does alcohol cause hypertension or pseudo-hypertension? 111–114
DAVIES MICHAEL Alcoholic liver injury 115–120
BEATTIE JOHN Alcohol and the child 121–127
BURR MICHAEL L. A tot a day keeps disease away 129–133

The Limits to Classical Assessment of Nutritional Adequacy *(Symposium Proceedings: Four Hundred and Thirty-seventh Scientific Meeting)*

COOKE BRIAN C. Evaluation of feeds for ration formulation 135–141
ROBERTSON J. A. Physicochemical characteristics of food and the digestion of starch and dietary fibre during gut transit 143–152
LOW A. G. Gut transit and carbohydrate uptake 153–159
SANDSTRÖM BRITTMARIE Factors influencing the uptake of trace elements from the digestive tract 161–167
GARLICK P. J., MCNURLAN M. A. & MCHARDY K. C. Factors controlling the disposition of primary nutrients 169–176

RICE DESMOND A. & KENNEDY SEAMUS Assessment of vitamin E, selenium and polyunsaturated fatty acid interactions in the aetiology of disease in the bovine 177–184
BUSS D. H. & SINGER D. D. Future developments in the UK food composition tables 185–190

Obituary Notice

YORK D. A. Obituary notice, T. G. Taylor (1919–1987) 191–193

Stable Isotopic Methods for Measuring Energy Expenditure *(Symposium Proceedings: Four Hundred and Fortieth Scientific Meeting)*

JAMES W. P. T., HAGGARTY P. & MCGAW B. A. Recent progress in studies on energy expenditure: are the new methods providing answers to the old questions? 195–208
COWARD W. A. The doubly-labelled-water ($^2H_2{}^{18}O$) method: principles and practice 209–218
JÉQUIER ERIC & SCHUTZ YVES Classical respirometry and the doubly-labelled-water ($^2H_2{}^{18}O$) method: appropriate applications of the individual or combined techniques 219–225
FJELD C. R., SCHOELLER D. A. & BROWN K. H. Energy expenditure of malnourished children during catch-up growth 227–231
VASQUEZ-VELASQUEZ L. Energy expenditure and physical activity of malnourished Gambian infants 233–239
SCHOELLER D. A., BANDINI L. G., LEVITSKY L. L. & DIETZ W. H. Energy requirements of obese children and young adults 241–246
ELIA M., FULLER N. & MURGATROYD P. The potential use of the labelled bicarbonate method for estimating energy expenditure in man 247–258
PRENTICE A. M. Applications of the doubly-labelled-water ($^2H_2{}^{18}O$) method in free-living adults 259–268

Four Hundred and Forty-second Scientific Meeting

LEWIS BARRY Nutrition, coronary heart disease and preventive medicine 269–275
GURR M. I. Lipid metabolism in man 277–285
VERNON R. G. & FLINT D. J. Lipid metabolism in farm animals 287–293
BUSS DAVID H. Is the British diet improving? 295–306
THELLE DAG S. Patterns of dietary change: the Scandinavian experience 307–314
HARRINGTON GEOFF Meat and meat products: changes in demand and supply 315–321
ROBERTS D. J. Changes in the demand and supply for milk and dairy products 323–329
LISTER DAVID Diets in transition: human health and animal production. Consequences for agriculture and some possible new approaches 331–342
SHRIMPTON D. H. The nation's diet in context: the future 343–347

Four Hundred and Forty-fourth Scientific Meeting

GADIAN D. G. Metabolic studies using localized magnetic resonance spectroscopy 349–352
CRABTREE B. & LOBLEY G. E. Measuring metabolic fluxes in organs and tissues with single and multiple tracers 353–364

HAGGARTY P. & MCGAW B. A. Non-restrictive methods for measuring energy expenditure 365–374
FOSTER M. A., FOWLER P. A., FULLER M. F. & KNIGHT C. H. Non-invasive methods for assessment of body composition 375–385
ASTON R., HOLDER A. T., WALLIS M., BATES P. C. & BOMFORD R. Enhancement of growth hormone activity in vivo by monoclonal antibodies: potential for autoimmunization 387–395
DAVIES MICHAEL J. & SLATER TREVOR F. The use of electron-spin-resonance techniques to detect free-radical formation and tissue damage 397–405
BUCKLEY WAYNE T. The use of stable isotopes in studies of mineral metabolism 407–416

ABSTRACTS OF COMMUNICATIONS

Four Hundred and Thirty-ninth Scientific Meeting

GRENBY T. H. & DESAI T. The dental effects of lactitol replacing sucrose in confectionery examined in a clinical trial 2A
GRENBY T. H. & PHILLIPS A. Dental caries potential of children's rusks 3A
KEMM J. R. & BRAY A. J. The use of questionnaires to predict fat and fibre intakes 4A
ELIA M., FULLER N. J. & FOTHERBY K. How valid are hospital studies of nutritional balance and metabolism? 5A
DURNIN J. V. G. A. & MCKILLOP F. M. The maternal fat component in the weight gain of pregnant women 6A
RAMDATH D. D. & GOLDEN M. H. N. Urinary mercapturic acid outputs of severely malnourished children 7A
YOUNG A. & LEVIN R. J. The involvement of chloride ions in the hypersecretory response to differing levels of cholinergic stimulation in the starved rat jejunum 8A
LEIPER J. B. & MAUGHAN R. J. Jejunal water transport in man: effects of bicarbonate or tartrate 9A
OMER ASMA B., BATES P. C. & MILLWARD D. J. Effect of combined vitamin E and protein deficiency on the hepatic response of the rat to the *Escherichia coli* endotoxin 10A
BAKKER N. P. M., ELING W. M. C., DE GROOT A., SINKELDAM E. J. & LUYKEN R. The influence of quantity and quality of protein on rodent malaria 11A
OMWEGA A. M., BATES P. C. & MILLWARD D. J. Vitamin E deficiency in the rat and the response to malarial infection 12A
HOVELL F. D. DEB., KYLE D. J., REEDS P. J. & BEERMAN D. H. The effect of β_2-agonists on the endogenous nitrogen loss of sheep 13A
PELL J. M., BATES P. C., MCANULTY R. J. & LAURENT G. J. The use of [^{3}H] proline to determine rates of collagen and noncollagen protein synthesis in skeletal muscle of lambs: effects of growth hormone 14A
BANKS W., CLAPPERTON J. L., MUIR D. D. & GIRDLER ANNE K. The physical properties of butter produced from the milk of Friesian or Jersey cows given diets based on either barley or oats 15A
MANSELL P. I. & MACDONALD I. A. Influence of underfeeding for 7 d on the physiological response to food ingestion 16A
FULLER N. J. & ELIA M. The implications of creatine–creatinine inter-conversions in man 17A

ELIA M., SCHLATMANN A., FOLMER P. & GOREN A. Fat metabolism in human skeletal muscle and in the whole body after ingestion of a mixed meal 18A
SMEATON IONA The effect of acute ingestion of a carbohydrate-based meal on the maximum running performance of rats 19A
SMEATON IONA Nutrient intake of six elite women athletes 20A
WARD F. W., COATES M. E., MACDONALD I. & SIMS A. The effect of dietary fats on *N*-nitrosamine formation in man 21A

Four Hundred and Forty-first Scientific Meeting

SCHUTZ Y., FROIDEVAUX F. & JÉQUIER E. Estimation of 24 h energy expenditure by a portable accelerometer 23A
CARLISLE H. J., ROTHWELL N. J. & STOCK M. J. Thermic responses to food in rats with lesions of the ventromedial hypothalamus 24A
MEIJER G. A. L. & WESTERTERP K. Assessment of daily physical activity using synchronous recording of heart rate and body acceleration 25A
TULP ORIEN L., MCKEE SISTER THOMAS D. & SANDLER CAROLINE The role of insulin resistance in impaired energy expenditure in the LA/N-*cp* (LA-corpulent) rat 26A
WONG WILLIAM W., LEE LUCINDA S. & KLEIN PETER D. Analytical considerations in the doubly-labelled water ($^2H_2{}^{18}O$) method 27A
PEACHEY T., FRENCH R. & YORK D. A. Regulation of the purine nucleotide binding site of brown adipose tissue mitochondrial uncoupling protein 28A
WESTERTERP K., HAMERS J. & BROUNS F. Validation of the doubly-labelled water technique at low and high activity levels 29A
LIVESEY G., PURDY P., BROWNSEY G., BROWN D. & DAUNCEY M. J. Replacement of movement-induced thermogenesis with cold-defensive posture-induced thermogenesis in rats kept at 21° compared with 28° 30A
FERRO-LUZZI A., SCACCINI C., VIRGILI F., HAGGARTY P., MCGAW B. A. & JAMES W. P. T. Field validation of the doubly-labelled water method 31A
JACKSON M. J., ROBERTS J. & EDWARDS R. H. T. Dietary fish oil supplementation modifies rat skeletal muscle fatty acid composition but does not influence the response of muscles to experimental damage 32A
HAGGARTY P., MCGAW B. A., JAMES W. P. T., FERRO-LUZZI, A., SCACCINI C., VIRGILI F. & FRANKLIN M. Calculation of isotope flux rates in truly free-living subjects 33A
POOLE JOANNE, JACKSON M. J. & EDWARDS R. H. T. Prevention of calcium-induced enzyme efflux from normal skeletal muscle by vitamin E 34A
HAGGARTY P., MCGAW B. A., MAUGHAN R. J. & FENN C. Energy expenditure of elite female athletes measured by the doubly-labelled water method 35A
LYNCH S. M. & STRAIN J. J. Effects of dietary lactose and copper deficiency in the rat 36A
BUTTE NANCY F., WONG WILLIAM W., LEE LUCINDA S., GARZA CUTBERTO & KLEIN PETER D. Energy expenditure of 4-month-old breast-fed and formula-fed infants 37A
POWERS HILARY J., WRIGHT A. J. A. & FAIRWEATHER-TAIT SUSAN J. The effect of riboflavin deficiency on absorption and distribution of iron 38A
LAWRENCE M. Day-to-day variations in the energy expenditure of rural Gambian women 39A

McBride B. W., Bell A. W., Vatnick I. & Early R. J. Energy expenditure associated with placental Na^+,K^+-ATPase activity in chronically heat-stressed ewes 40A

Singh J., Coward W. A., Prentice A. M., Ashford J., Sawyer M., Diaz E. & Whitehead R. G. Doubly-labelled water measurements of energy expenditure in Gambian women during the agricultural season 41A

Bibby D., Phan Nyuk S. & Grimble R. F. Inhibition of fever but not tissue protein and zinc responses to *Escherichia coli* endotoxin by pregnancy in rats 42A

Goldberg G. R., Prentice A. M., Murgatroyd P. R., Davies H. L. & Scott W. Individual variation in the energy cost of pregnancy. 1. 24 h whole-body calorimetry 43A

OMER ASMA B., BATES P. C. & MILLWARD D. J. The effect of vitamin E deficiency in rats on the link between muscle glutamine and protein synthesis during the catabolic response to the *Escherichia coli* endotoxin 140A

Four Hundred and Forty-eighth Scientific Meeting

WALKER J. & KINDLEN S. The effect of practice on the measurements of skinfold thickness by an inexperienced observer 142A

BREVES G. & HÖLLER H. Unidirectional calcium and phosphate fluxes across the isolated mucosa from the rumen and omasum of sheep 143A

YOUNG A., NZEGWU HELEN C. & LEVIN R. J. Glucose feeding during starvation and its effects on secretion in the rat ileum and colon 144A

BARBER M. C. & DILS R. R. Inverse relation between DNA synthesis and casein mRNA synthesis in mammary epithelial organoids from mid-pregnant mice 145A

CASEY C. E. Zinc, copper and manganese in human milk in late lactation 146A

IMONG S. M., JACKSON D. A., SILPRASERT A., WONGSAWASDII L., CHIOWANICH P., WOOLRIDGE M. W., BAUM J. D. & AMATAYAKUL K. Interactions between breast and supplementary feeding in rural northern Thailand 147A

EVANS, R. D. & WILLIAMSON D. H. Effects of tumour implantation on the onset of lactation in the rat 148A
MERCER S. W. & WILLIAMSON D. H. Inhibition of insulin release by mannoheptulose decreases mammary gland glucose uptake, lipogenesis and phosphofructokinase activity in starved–refed lactating rats 149A
METCALF J. A. & WEEKES T. E. C. Effect of feeding level on insulin sensitivity during lactation in the ewe 150A
STANGASSINGER M. & GIESECKE D. Changes in circulating insulin and in insulin-receptor affinity of erythrocytes in dairy cows around parturition 151A
SWART J. N., WILKE P. I., VAN DER MERWE H. J. & SMITH A. The use of ammonium acetate for milk-fat production in high-producing dairy cows 152A
WILTON J. C., GILL M. & LOMAX M. A. Uptake of ammonia across the liver of forage-fed cattle 153A
NEWBOLD C. J. & CHAMBERLAIN D. G. Lipids as rumen-defaunating agents 154A
CARTER R. R. & GROVUM W. L. Observations on how sodium chloride loading of the rumen depresses food intake in sheep 155A
CARTER R. R. & GROVUM W. L. Effect of feeding frequency on total (sham-feeding) and unilateral parotid (normal-feeding) saliva production in sheep 156A
CAMPBELL D. M., RADCLIFFE M. A. & SMITH A. D. Lipolysis and fat cell size in subcutaneous adipose tissue from women breast-feeding and those artificially feeding their babies 157A
BUTTERWICK R. F., WEEKES T. E. C., ROWLINSON P., PARKER D. S. & ARMSTRONG D. G. The effect of long-term administration of bovine somatotropin on plasma hormone and metabolite levels in dairy heifers during their first lactation 158A

Four Hundred and Fiftieth Scientific Meeting

NOBLE R. C. & OGUNYEMI D. Absorption of residual yolk and liver lipid changes in the newly hatched chick 160A
YAFEI N. & NOBLE R. C. Yolk lipid uptake by the chick embryo: an electron microscope study with reference to low hatchability in young parent stock 161A
HEATON F. W., TONGYAI S. & RAYSSIGUIER Y. Increased fluidity of the erythrocyte membrane in magnesium deficiency 162A
RAYSSIGUIER Y., TONGYAI S., GUEUX E., MOTTA C. & HEATON F. W. Lipid composition and erythrocyte membrane fluidity in magnesium deficiency 163A
NZEGWU HELEN C., PEREIRA M. M. C., WARREN M. A., LEVIN R. J. & YOUNG A. Acute and chronic undernutrition and their effects on rat colonic secretion 164A
CARNIE J. A., LEFEUVRE R. A., LINTON E. A., MCCARTHY H. D. & ROTHWELL N. J. Thermogenic effects of corticotrophin-releasing factor in genetically obese Zucker rats 165A
COOPER A., HORAN M. A., LITTLE R. A., ROTHWELL N. J. & STRIJBOS P. J. L. M. Acute thermogenic responses to intramuscular typhoid vaccination in man 166A
ROWE J. B. & CROSBIE G. B. Nutritive value of oat grain: the importance of hull lignin 167A
SCOLLAN N. D., BRISBANE J. R. & JESSOP N. S. Effect of diet and level of intake on the activities of acetyl-CoA synthetase and acetyl-CoA hydrolase in ovine adipose tissue 168A
EAYRES H., ANDERSON D. & OLDHAM J. D. Substitution of barley and sugar-beet pulp for hay in young and adult wether sheep 169A

FRIGGENS N., EMMANS G. C., ROBERTSON S., CHAMBERLAIN D. G. & OLDHAM J. D. Responses of dairy cows to variation in plane of nutrition and to source of metabolizable energy 170A

Four Hundred and Fifty-first Scientific Meeting

MOODY RICHARD The effect of habitual breakfast omission on the energy cost of rest, exercise and dietary-induced thermogenesis during consumption of weight-maintenance and low-energy diets 172A
FRAYN K. N., COPPACK S. W., WHYTE P. L., HUMPHREYS S. M. & NG L. L. Measurement of arteriovenous differences across an adipose depot in man 173A
HUDSON A., HARDMAN A. E., JONES P. R. M. & NORGAN N. G. Influence of a 3-month programme of brisk walking on walking performance, plasma cholesterol and body fatness in middle-aged women 174A
MACLAREN D. P., REILLY T., CAMPBELL I. T. & FRAYN K. N. Hormonal and metabolic responses to carbohydrate and guar gum ingestion before endurance exercise 175A
GOODLAD J. S. & MATHERS J. C. Effects of food carbohydrates on large intestinal fermentation in vitro 176A
MBANYA J. N., ANIL M. H. & FORBES J. M. Effects of intraruminal infusions of sodium acetate on silage intake by dairy cows 177A
MAHDI G. S. & NAISMITH D. J. The therapeutic value of barley in the treatment of diabetes mellitus 178A
WOOD S., LEENEN R., PULLICINO E. & ELIA M. Effect of short-term starvation on the release of glutamine by human muscle 179A
JONES R., GROVES E. & FITZGERALD G. E. Long-term dietary intervention in multiple sclerosis patients: blood cell correlates 180A
THURNHAM D. I. & FLORA P. S. Do higher vitamin A requirements in men explain the difference between the sexes in plasma provitamin A carotenoids and retinol? 181A
THURNHAM D. I., MUNOZ N. & HAMBIDGE K. M. Placebo effects explained by a sex difference in vitamin A requirements and changes in plasma retinol in adults 182A
OMWEGA A. M., BATES P. C. & MILLWARD D. J. Effects of desferrioxamine on the influence of vitamin E deficiency on rodent malaria 183A
LOUGHRIDGE J. M., FOX T. E. & SHEPHERD R. Validation of a questionnaire as a method of estimating calcium intake 184A
MORGAN LINDA M., TREDGER JACKI A., WILLIAMS CELIA A. & MARKS V. Effects of sugar-beet fibre on glucose tolerance and circulating cholesterol levels 185A
GEE J. M. & JOHNSON I. T. Influence of non-digestible polysaccharides on small-bowel cytokinetics and circulating enteroglucagon levels in the rat 186A
